SAP EDUCATION

SAP ANALYTICAL BANKING:

SAP Banking is the central standard solution for the financial services industry. The **Bank Analyzer** as an analytical banking solution allows e.g. to fulfill the requirements set by IAS, **Basel II** and regulatory reporting. Our Course Content will prepare you to understand the tools, topics and deliverables of the Business Content. Technically implement the business requirements for FDB, Credit Risk Analysis, HDB, BW – Reporting based on the Business content in accordance with **BASEL II** and to set up customer specific installation. Also you will be able to describe how **BASEL II** Content supports the customer configuring the **BASEL II** Solution.

Delivery Type: Class – Room Instructor Led

Locations: Calgary, Edmonton, Vancouver, Ottawa, Montreal & Toronto
