

SAP EDUCATION

SAP for Higher Education & Research:

SAP for Higher Education & Research solutions, both public and private universities – as well as multi-campus educational institutions, research agencies, and medical colleges – are expanding student services, improving financial performance, enhancing operational visibility, supporting strategic decision making, and reducing costs. The result is better management of campus activities, student lifecycle, research, grants, financials, operations, human capital, procurement, and assets.

SAP's solution portfolio for higher education and research supports the full range of organizational processes such as Student life-cycle management, Grants and funds management, financial management, budgeting, and planning, Relationship management, institutional development, enrollment management etc.

Delivery Type: Class – Room Instructor Led

Locations: Calgary, Edmonton, Vancouver, Ottawa, Montreal & Toronto
