

SAP EDUCATION

SAP for Oil & Gas:

Deregulation, market consolidation, the global growth in energy demand and fluctuating commodity prices are beyond the control of individual oil and gas companies. These are all placing huge pressure on the petroleum industry to manage costs and seize opportunities as efficiently as possible.

SAP Oil & Gas offers a complete e-business solution from oil and gas companies of all sizes for businesses operating in various business segments. These range from the wellheads to retail outlets, and allow companies to be globally integrated while regionally focused. Companies using **SAP Oil & Gas** enjoy stronger relationships with supply chain partners, improved decision – making capabilities and enhanced organizational flexibility. The Results are Lower Costs, higher profitability and improved competitiveness.

Delivery Type: Class – Room Instructor Led

Locations: Calgary, Edmonton, Vancouver, Ottawa, Montreal & Toronto
