

SAP EDUCATION

SAP LEASING:

SAP Leasing combines integrated, enterprise-wide financial functionality with world-class CRM capabilities. This complete, end-to-end solution is designed for the widest range of banks and financing companies, including those dealing with large volumes of leasing contracts and complex transactions. With SAP Leasing, you can integrate lease origination processes, achieve operational efficiencies for lease administration and monitoring, and build stronger relationships with your customers, vendors, and other partners. The solution supports all steps in the contract life cycle, from financing opportunity and lease origination to mid-lease changes and end-of-lease options, including remarketing.
